Points are awarded for each race in reverse order to the final classification of the race. The skater who finishes in last place receives one point, whereas the skater who finishes in first place is awarded the equivalent number of points to the number of participants in the race.

In the event of a tie in the *Individual Final Ranking*, the last race is the deciding race (for all age groups).

The *Collective Final Ranking* is calculated based on the number of points obtained in the *Individual Final Ranking* by all athletes from the same club/team/selection.

In the **European Cup**, there will be an individual classification in the sprint and long distance races for the Cadets, Juvenis / Youth, Juniors and Seniors age groups only. The 500m and 1km races count towards the sprint ranking and the points obtained in the 3.5km and 10km races count towards the distance ranking. In the event of a tie, the ranking will be decided based on the result of the final race.
