

WORLD SKATE EUROPE
INLINE SPEED SKATING TECHNICAL COMMISSION

OC 001/2025

OFFICIAL COMMUNICATION **001/2025**

Subject: Track Series Europe

To: all National Federations and Organizers

Date: January 16, 2025

Dear Presidents,

As you know, next April, the new "Track Series Europe" will start and in the recent months this Technical Commission has worked hard to be able to have a tournament of the highest level.

At the present, we are working on a new IT platform to give to the clubs and the teams the tools to register their athletes for the series and for the single stages.

This new platform will be available from February 15, 2025 and from that moment on it will be possible to register the skaters.

We will provide all the necessary instructions as soon as possible.

I ask you to publish this news on your Federation's website and on your social networks to inform all clubs and teams that are interested in participating in the new series.

Thank you for your cooperation

Sport regards

Romolo Bugari
Chairman
